

Nature Vision

presents

One-Hour Program Visits for your Summer Day Camp

Cost: \$90/ hour Group Size: 30 or less

- 🌍 **Sunshine Celebration:** Light from the sun powers the cycle of life on Earth. Brighten up your summer by joining us to play food chain and energy flow games.
- 🌍 **Animal Magic:** Animals can virtually disappear or transform themselves through the use of an amazing technique called "camouflage". Join a naturalist to explore- and try out this magical animal trick! Note: Requires a wooded area, or meet us at a local park.
- 🌍 **Dirty, Rotten Discoveries:** Dig through worm bin dirt, play a nutrient recycling game, and discover how decomposition recycles matter through nature's systems in its own oo-wee-go-wee way.
- 🌍 **It's a Wonderful World:** Awaken a sense of wonder through the nature right in your own backyard. Scavenger hunts, nature art, and quiet time in your own secret forest spot are all part of this not-to-be-missed experience. Note: Requires a wooded area, or meet us at a local park.
- 🌍 **Call of the Wild:** Howl like a wolf, dance like a bee, and explore the many other ways animals have of communicating with one another.
- 🌍 **Sweet Home-Animalia:** Warmth, staying dry, and being secure are needs we share with animals. How do we do it? Shelters! Let's make one of our own and learn how animals make them, too. Note: Requires a wooded area or meet us at a local park.
- 🌍 **Summer Bug Safari:** Join a naturalist to gently and respectfully, seek out and learn about bugs. After all, what would summer be without bugs? Games, bug hunting, and bug holding are just some of the fun.
- 🌍 **Water Whiz:** Learn about the water cycle. Play water cycle games, and maybe even get wet in the process.
- 🌍 **Track Trek:** Let's head out into the woods and look for tracks and other signs of animals! We'll also make a plaster track to take home.

Registration Information: Choose from the list above and visit <http://www.naturevision.org/program-registration/> to register. Call (425) 836-2697 for more info.
